ChessHive

Years 7, 9 and 11 - Week 1 Thursday
Lab 102

Can be complete beginners to the game of chess and there is also a small selection of other games they could choose to play instead, so it is not all about the chess. It is just providing an opportunity for the students, for example to socialise more with students in other groups, as well as gaining the benefits and building a number of skills which come from playing the likes of Chess and Hive, and hopefully have some fun.

Mrs Barnes- G10
